## HONR 312

### Honors Research/Creative Project

This course is designed for students who are interested in conducting research or a creative project. Students will work closely with a faculty mentor to develop and execute a project of their own design. The course is open to students in all disciplines and is a great way to gain hands-on experience in your field of interest. Students will learn how to identify a research topic, conduct literature searches, design experiments, collect and analyze data, and write a research paper. The course is a great way to gain experience in your field of interest and to develop the skills and knowledge necessary for a successful career in research or a creative profession.

## HONR 490.041 [2600]

### Thesis Preparation

Lauren Hill • M 5-5:50 p.m. • AC 302

This course is designed for students who are preparing to write a thesis. Students will learn the process of writing a thesis, from choosing a topic to defending the final paper. The course is open to students in all disciplines and is a great way to gain experience in writing a thesis. Students will learn how to choose a topic, conduct research, write a proposal, and defend the final paper. The course is a great way to gain experience in writing a thesis and to develop the skills and knowledge necessary for a successful career in research or a creative profession.

## HONR 495

### Honors Thesis
