

SU PARENT SUPPORT LISTSERV

Welcome to our parent support network!

If you are a faculty or staff at Salisbury University and have kids, this is the listserv (google group) for you.

Let's suppose you have just found out about a cool happening that would be perfect for middle school kids and would like to share it with other parents. This listserv would be an ideal place to share the information.

Sharing information about family-friendly events is just one example of how the listserv can be used, but the list could go on and on. Other uses may include childcare exchanges, referrals, and opportunities; children clothing and gear exchange; parent support groups, etc. You state your needs and chances are other parents in the listserv may be able to help you.
