

Department of Communication

Answer:

Question: Can I earn credit for more than one internship during my college years?

Answer: Yes! Many students take an internship their junior year, as soon as they become eligible, and another their senior year, just before they graduate. In these cases, first, the first set of COMM 495 course credits they earn satisfies their COMM Core requirement. The second set of COMM 495 credits they earn are counted toward their 120 elective credits for graduation.
